Technical Writing and Communication B.S.

Writing Studies Department
College of Liberal Arts

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2021
- Required credits to graduate with this degree: 120
- Required credits within the major: 52
- Degree: Bachelor of Science

The Department of Writing Studies offers a B.S. in Technical Writing and Communication (TWC).

Technical writing and communication creates a bridge between experts and various audiences who put knowledge into practice. The TWC major offers students who enjoy writing the opportunity to use written, digital, oral, and visual communication theory and practice as it happens in the current workplace. Students will study writing and editing, rhetorical theory, visual rhetoric and document design, usability, and technical communication practices.

TWC majors examine how communication is a complex process that involves both the robust principles of audience, persuasion, clarity, accuracy, and ethical integrity, and a command of the knowledge of scientific and technical topics that one communicates.

Organizations, both for profit and non-profit, demand people who can communicate ideas or concepts clearly, ethically, and with authority. At the core of these communication skills is a knowledge of writing and how it creates understandings with particular audiences. TWC graduates work in many areas, including health, business, science, law, and technology. Technical writer, usability specialist, user experience designer, and content strategist are just a few of the careers are just a few of the titles our graduates hold.

Why major in TWC?

1. TWC majors are in demand and sought after by employers. The US Bureau of Labor Statistics predicts technical communication as a career will grow faster than average over the next decade. And US News and World Report lists technical writer in the top 100 jobs for 2020!
2. Our advisory board of alumni and industry professionals offers networking, mentorship, internship, and job opportunities.
3. Students learn to use rhetoric as a powerful communication tool.
4. Students become familiar with current writing and web technologies.
5. TWC pairs well with other majors such as political or health science.
6. Sub-plans enable students to focus their writing skills in one of four emphasis areas: information technology and design, biological and health sciences, legal discourse and public policy, or environmental science.

Program Delivery

This program is available:
- via classroom (the majority of instruction is face-to-face)

Admission Requirements

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

All students are required to complete general University and college requirements including writing and liberal education courses. For more information about University-wide requirements, see the [liberal education requirements](#).Required courses for the major or minor in which a student receives a D grade (with or without plus or minus) do not count toward the major or minor (including transfer courses).

Program Requirements

Equivalent transfer courses are accepted in all course groups except Core Courses.

At least 22 upper division credits in the major must be taken at the University of Minnesota Twin Cities campus.

Students may earn a BS, a minor, or a certificate in technical writing and communication, but none of these may be combined.

All incoming CLA freshmen must complete the First-Year Experience course sequence.

All students must complete a capstone in at least one CLA major. The requirements for double majors completing the capstone in a different CLA major will be clearly stated. Students must also complete all major requirements in both majors to allow the additional capstone to be waived. Student completing an addition degree must complete the capstone in each degree area.

Foundation Course
  Take exactly 1 course(s) totaling exactly 3 credit(s) from the following:
 •WRIT 1001 - The Art of Explaining Things: Introduction to Technical Writing and Communication (3.0 cr)

Core Courses
  Take exactly 6 course(s) totaling exactly 19 credit(s) from the following:
 •WRIT 3221W - Communication Modes and Methods [WI] (3.0 cr)
 •WRIT 3441 - Editing, Critique, and Style (3.0 cr)
 •WRIT 3671 - Visual Rhetoric and Document Design (3.0 cr)
 •WRIT 3701W - Rhetorical Theory for Writing Studies [WI] (3.0 cr)
 •WRIT 3562W - Technical and Professional Writing [WI] (4.0 cr)
  or WRIT 3562V - Honors: Technical and Professional Writing [WI] (4.0 cr)
 •WRIT 4501 - Usability and Human Factors in Technical Communication (3.0 cr)
  or WRIT 4662W - Writing With Digital Technologies [WI] (3.0 cr)

Electives
  Take exactly 4 course(s) totaling exactly 12 credit(s) from the following:
  Oral, Written, Visual, and Digital Communication
  Take exactly 2 course(s) totaling exactly 6 credit(s) from the following:
