Cellular and Organismal Physiology B.S.

College of Biological Sciences - Adm

College of Biological Sciences

- Program Type: Baccalaureate
- Requirements for this program are current for Spring 2023
- Required credits to graduate with this degree: 120
- Required credits within the major: 74 to 82
- Degree: Bachelor of Science

Physiology is a unique field that studies the mechanisms of cells, organs, tissues, and organisms, incorporating concepts and approaches especially from physics, genetics, and biochemistry. Physiology is oriented to "understanding how biological systems function" and therefore is a natural pre-med major. The physiology BS is a broad-based physiology major and is excellent preparation for medical school, dental school, veterinarian school, and graduate school in a variety of biological disciplines. The physiology BS shares a core set of chemistry, math, physics, and biology courses required for all CBS students. This allows students to switch majors within CBS without losing credits towards graduation through their second year. This also promotes core competency in CBS graduates and promotes community within the CBS student body since students take classes together. The biology core includes the foundations of biology series, molecular biology and society, biochemistry, genetics, and cell biology. In addition, students are exposed to the physiology of the entire range of organisms from bacteria to plants, fungi, animals, and humans.

Program Delivery

This program is available:

- via classroom (the majority of instruction is face-to-face)

Admission Requirements

A GPA above 2.0 is preferred for the following:

- 2.50 transferring from another University of Minnesota college
- 2.50 transferring from outside the University

For information about University of Minnesota admission requirements, visit the [Office of Admissions website](#).

General Requirements

All students are required to complete general University and college requirements including writing and liberal education courses. For more information about University-wide requirements, see the [liberal education requirements](#). Required courses for the major or minor in which a student receives a D grade (with or without plus or minus) do not count toward the major or minor (including transfer courses).

Program Requirements

At least 17 upper division credits in the major must be taken at the University of Minnesota Twin Cities campus.

Program Sub-plans

A sub-plan is not required for this program.

Integrated BS/MPH-Environmental Health

The College of Biological Sciences (CBS) and the School of Public Health (SPH) offer an early-admission opportunity for eligible CBS students interested in pursuing the Environmental Health MPH degree.

The MPH program in the Division of Environmental Health Sciences emphasizes the scientific, technological, policy, and management skills required to address environmental health concerns. These concerns include investigating health hazards in our environment, protecting worker health, and establishing the basis for public health policy. The Division of Environmental Health is committed to graduating professionals with interdisciplinary training, which includes practicing innovative problem solving, and gaining experience with a diversity of approaches and applications.

To be eligible for this program, applicants must be admitted undergraduate students in the College of Biological Sciences, have completed at least 60+ credits, and have a GPA of at least 3.25.

Students admitted to the Integrated BS/MPH-Environmental Health program take 12 MPH credits during their senior year, and complete the MPH by taking remaining credits as a full-time graduate student in the summer and academic year after completing their undergraduate degree.

Graduate courses cannot be applied toward both BS and MPH credit and degree requirements. Admitted students must maintain timely degree progress to ensure that the BS degree is awarded no later than the end of the senior year.

The application deadline for the Integrated BS/MPH-Environmental Health opportunity is the spring of the applicant's junior year. Interested students should consult with their CBS academic advisor or School of Public Health for application instructions.
